

Environmental Policy

Birmingham Stopper recognises that it has an important role to play in maintaining a high standard of environmental care within its business operations. The Company is committed to the environment and will ensure that the Company's activities, products and services comply with all relevant environmental regulations and other requirements. We shall adopt a proactive approach to continual improvement and prevention of pollution.

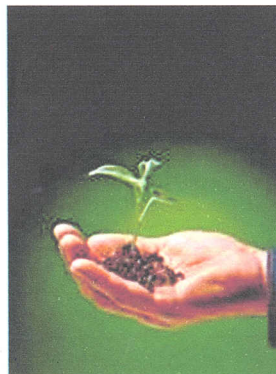

Scope

Birmingham stopper manufacture metal pressings and pressing assemblies in steel and non ferrous materials to customer drawings and specifications. Presses up to 600 tonnes capacity are available with welding processes, stud, projection and MIG, for the use in fabrication and assemblies including compliance with TS16949 & ISO9001.

To achieve our environmental policy commitments Birmingham Stopper will,

- Develop and maintain an effective environmental management system.
- Continually improve and prevent pollution where practicable.
- Manage the work environment and housekeeping to high levels.
- Set, monitor and improve our environmental objectives and targets.
- Develop and train our employees to increase their environmental awareness.

To make our environmental policy available to all interested parties.
